

GENTLE MOTION

RECIPROCATING AGITATION RETORTS

New Technology for Flexible Containers

The Gentle Motion reciprocating agitation retort is a low cost alternative to static processing and has the same capacity as static retorts up to 6 cars long. The Gentle Motion retort is ideal for horizontally oriented containers with head space.

FEATURES AND BENEFITS

- Increased throughput
- Improved quality
- Utility savings
- New product options
- Market differentiation
- Lower cost per case

Gentle Motion Retort at 90 SPM

Static Retort
