PRODUCT HANDLING

400X AUTOMATION FULLY AUTOMATIC HIGH SPEED LOADERS/UNLOADERS

The Fastest Sweep-Type Retort Room Automation On The Market

The ALLPAX 400X Hyperloader is the fastest sweep-type retort room automation on the market capable of up to 10 sweeps per minute. In addition to automatic divider sheet handling, the Hyperloader features a disappearing product former, a product bridge, and a pre-formed product staging area that results in continuous loading.

FEATURES AND BENEFITS

- Heavy-duty stainless steel frame
- All components designed using SolidWorks
- VFDs on all conveyors for unlimited speed control
- Hydraulic layer indexing for accurate layer positioning
- Precise servo driven movement to maximize speed and flexibility
- Advanced diagnostics and documentation at operator interface
- Automatic slip sheet squaring and insertion
- Allen Bradley Compact Logix controls package with 15" color touchscreen
- Rapid and simple container size changeover
